

Policy Statement

It is the policy of The Outstanding Events Company Limited (The Company) to ensure that all its business activities minimise impact on the environment and to improve continuously our environmental performance. The Company aims to establish best practice in the following areas.

Energy – We will minimise the consumption and associated green house gas emissions of power and water. Where possible we will use alternative energy sources for heating, lighting and power.

Resources – We will reduce the amount of man made resources employed in our products and where possible, multi task man made resources.

We will emphasise the use of natural and sustainable resources and where possible maximise versatility of use.

Waste – We will promote waste reduction and the re-use and recycling of waste produced.

Transport – We will use the best route and endeavour to help reduce congestion by travelling during off-peak periods. We will attempt to use green fuels and minimise vehicle use to reduce pollution. We will maintain all vehicles in a good condition.

Property management – We will monitor our working environments and offices to provide comfortable, healthy, efficient and sustainable buildings.

Community – we will actively contribute to the quality of community life and demonstrate our responsibility as a good neighbour. We will support local environmental initiatives.

Education – we will actively promote environmental awareness to our client groups, by demonstrating recycling, re-using and reducing.

Improvement– we will continuously monitor and improve where necessary our environmental performance.

Communication - We will ensure that all employees, suppliers and clients are made aware of our environmental policy and actively encourage them to participate in environmental improvement. We will train our staff in best practices.
